Introduction

The attendance policy comprises a set of rules, guidelines and procedures established by an organization which outlines specific expectations regarding employee's presence in office / official premises. It also contains provisions of disciplinary actions regarding employees uninformed / unapproved absence and tardiness while in office / official premises. This policy ensures the efficient operation and productivity of the company by establishing clear expectations for all employees.

Purpose

The purpose of this attendance policy is to set clear guidelines for employee attendance, holding employees accountable for their attendance patterns. This policy clearly outlines attendance expectations and the consequences of non-compliance, providing a structured approach for addressing attendance issues and enforcing necessary disciplinary actions.

Objective

The objective of this policy is to enhance attendance and productivity by setting transparent expectations and consequences related to attendance issues. The policy aims to encourage regular and timely attendance while allowing flexibility for unforeseen circumstances. By maintaining a fair and consistent attendance policy, ApMoSys strives to foster a positive work environment and improve employee morale.

Scope

This policy is applicable uniformly to all employees of ApMoSys Technologies (reporting to ApMoSys' office(s) or Client Location (s)), regardless of position or employment status. It covers all policy provisions of attendance, including punctuality, leave of absence, procedures for reporting absences, any specific documentary evidences, and effects of policy violations.

Policy Elements/Guidelines

The employee attendance at ApMoSys is captured exclusively using the designated electronic biometric attendance system thru the Face Recognition mode, Fingerprint Recognition mode or Access Card mode by machines installed at the HO main entrances. For employees deputed to client locations, a mobile app is made available which is integrated with the biometric servers. The attendance data captured by the attendance system is fully integrated with the HRMS. The prescribed Leave and Attendance policy and rules are configured on HRMS software as attached in Annexure A.

- **Attendance Expectations:** Employees are required to report to work on time and remain present at their designated work places during their scheduled work hours. In the event of unforeseen circumstances e.g., illness or any other reason preventing reporting to office, employees must promptly inform their reporting managers or the HOD, HR department (in case of the reporting manager is unavailable)
- **Punctuality:** Employees are expected to report to work and be ready to start work at the designated time (Shift Time). Late arrivals disrupt the work environment and can delay operations. Employees should notify their Reporting Manager or HOD in case of unavoidable delays. Repeated tardiness will be considered as a violation of this policy (except few approved
